8 Bar Blues

INTRO

A            A/F#            B  
E                    A            E

          A  
You go out, when you get ready.

          D                    F  
And you come home, when you please.

          A                    A/F#            B  
You just love me when you want me baby  
          E                                    A                    E  
and you think it'll be alright with me.

VERSE 2:

          A  
When I try, to talk to you baby.

          D                    F  
And to let you know, just how I feel.

          A                    A/F#            B  
You just tell me if I don't like it,  
          E                                    A                    E  
you know someone else will.

CHORUS:

          D  
Ooh, but I got wise to you baby.

          A  
You're not the only bird, that flies in the sky.

          B  
So don't ask me no questions now baby,  
          E  
and I won't, I won't tell you no lies.

VERSE 3:

          A  
Because I love for your arms to be round me.

          D                    F  
And your lips to be close to mine.

          A                    A/F#            B  
I just wanna love you woman,  
          E                                    A                    E  
and to, be with you, all the time.
